

PHILOSOPHY & AGREEMENT OF LITERACY LEARNING
Adopted June 2018

The Regional Multicultural Magnet School recognizes every child's right to grow up literate in a learning community that values the richness of linguistic, ethnic and cultural diversity. We foster an environment of student choice and inquiry to promote a joy for literacy that builds lifelong learners. Students demonstrate caring and empathy as they support each other through literacy learning. Through dynamic instruction students take responsibility for becoming powerful agents of their reading, writing, speaking and thinking. We believe that when students achieve a high level of literacy they investigate and challenge ideas that fuel intellectual curiosity. Students use the power of their literacy skills to create meaningful changes for themselves and others in the world.
